

Dr. H. McElwee

Chicago's Leading Specialist

will visit

GRAND RAPIDS

At the Witter House

Saturday, July 22

For one day only and every

Four Weeks Thereafter.

Every Man and Woman

suffering from any disease of a chronic

nature is urgently requested to call

and get the doctor's opinion in regard

to their case.

Examinations and consultations are

free and if you are suffering from

any Nervous Disease, Stomach or

Bowel Trouble, Bladder or Kidney

Disease, Rheumatism, Gout (big

toes), or any disease peculiar to your

sex, do not fail to see me on above

date. I will be glad to refer you to

many I have cured in your own com-

munity, of similar troubles. Don't de-

ceive me and let us talk over your

case. It will cost you nothing

and may be the first step toward your

reigning health. Remember we do

not invite incurable cases and

Guarantee a Cure in every case accepted.

German, English and French

speakers. Persons who cannot call

should write. Address:

DR. H. McELWEE

5103 Indiana Ave., Chicago, Ill.

TURN WOMEN AWAY FROM DRUGS

Dangerous Stimulants No Longer Needed—
—Rexall Mucuo-Tone Brings Permanent Health and Vigor

"My husband worries so, Doctor, you simply must give me something to keep me up—something that will make me bright and cheerful when he comes home at night."

"Thousands of unfortunate women are in just this position—women who are rapidly breaking down in body and whose minds are becoming dark and dull with suffering and despair."

"They have tried to fight off ill health, have struggled to keep up in spite of pain and weakness that their husbands should not guess their condition."

"At last, counsel a day when they can do this no longer. Their strength is gone, their will power no longer strong enough to carry them through. So they turn to drugs, instead of drugs, from the first dose Mucuo-Tone's strengthening influence is felt—both instead of healing mind and body, it restores both to health and vigor. Head what it did for Mrs. Funk."

A WONDERFUL RECOVERY.

"Thank Heaven for Rexall Mucuo-Tone. It has given me back health and strength after years of weakness, pain and physical exhaustion. I was completely broken down and certainly looked ten years older than I am. Local treatment would benefit me temporarily but in a few weeks my trouble always returned worse than ever. Then I heard of your Mucuo-Tone, and though I did not believe it possible to cure complaints of this nature by taking anything in the stomach, I determined to give Mucuo-Tone a trial. I can't tell you how glad I am that I did. Almost the first dose seemed to brace me up and give me new strength, and by the time the first bottle was gone all disagreeable symptoms had disappeared. I am now feeling the second bottle and I can truthfully say I never felt better in my life. I eat well, sleep well and have already gained seven pounds in weight."

Rexall Mucuo-Tone works through the blood vessels, acting directly upon the mucous membranes, the congestion and inflammation of which produce the cerebral conditions which are the sole cause of all your trouble, driving out the poison and healing the raw surfaces. It fills the arteries with rich, red, life-giving blood, builds up the body, stops all vital drains, soothes the fagged nerves and brings sound, restful sleep.

We promptly refund your money if you are not more than satisfied with Mucuo-Tone.

Sold only at our store. Price, 50 cents and 85 cents per bottle. Mail orders promptly filled.

BY DRUMB & SUTOR.

GRAND RAPIDS, WISCONSIN.

WORLD'S NEWS
—TOLD IN—
PARAGRAPHS

A roundhouse in the South Nashville, Tenn., yards of the Louisville and Nashville Railroad was burned, loss, \$50,000. Nine locomotives were damaged to the extent of \$10,000.

The Queen City tannery of Titusville, Pa., the largest sole leather manufactory in the world, was sold by Leuchus Beebe & Sons of Boston to the United States Leather Company. The transfer involves about \$1,500,000.

Nellie Kools of Peoria, Ill., a nurse in the Bartonsville, Wis., hospital, was being taken to a state of coma, from which she cannot be aroused, the authorities being puzzled by the strange case.

The Canadian minister of finance, in his statement issued at Ottawa, announced that an arrangement is to be made with banks of the Dominion to deposit American silver because banks in the United States do not take Canadian silver.

Huron Speck Von Sternburg, the German ambassador at Washington, and his wife sailed for Germany on the steamship Bremen. He is on a three months' vacation.

Victor H. Metcalf, secretary of the department of labor, spent part of Thursday at the home in Utica, N. Y. He was joined there by Mrs. Metcalf and they left for Montreal and will go thence to California.

Harry Walker, aged 18 years, and Alexander Worrall, aged 12, both of Port Vue, were drowned in the Youngs Bay river, near McKeanport, Pa. A boat containing the two persons was overturned when they were about 100 miles north of Connetquot, Calif., recently is missing.

W. H. Smith, while working on a government dam at Burlington, Iowa, fell into the river and was drowned, leaving a wife and two children at Cedar Rapids, Iowa.

Robert E. Harter, 16, only son of Judge R. Harter, former mayor of Colorado Springs, Colo., was shot to death by Matthew Daily. The shooting was accidental.

Prince and Princess Arima-gawa of Japan, who are now in London, have announced their projected marriage. The ceremony is to be held at the end of the year, and will take place in the city of Tokyo.

A start has been made by the American Sheet and Tin Plate company to operate their Pittsburgh works with non-union labor. Two crews reported for work in one mill and one in another. The trouble arises from the reduction of the December scale, which means a reduction of 10 per cent in the pay of the men. Many strike-breakers are said to be in the neighborhood.

A woman masquerading as a man was arrested in a railroad car by the local police of Kankakee, Ill. She had been traveling for some time, and will sail on July 11 direct to Yokohama by way of the Suez canal.

ROOT RETURNS
TO THE CABINETNew York Man Is Selected
to Succeed the Late
John Hay.

MAKES SACRIFICE FOR COUNTRY

Gives Up Splendid Law Practice to
Accept the Portfolio of Secretary of
State at Solicitation of President
Roosevelt.

Washington, July 7.—Former Secretary of War Elihu Root has consented to give up the most profitable law practice in the country and return to the cabinet as secretary of state.

The extent of the practice Mr. Root has built up in a comparatively short time has exceeded his greatest expectations, and he believes he now is making more money than any other lawyer in the country on a straight fee basis.

Root's resignation from the cabinet, excluding occasional emergency calls, was received from great transactions, such as William Nelson Cromwell received for putting through the sale of the Panama canal.

A prominent New York lawyer told a friend here that Mr. Root is making at least \$2,000 a year. When Mayor Weaver of Philadelphia called Mr. Root last evening, Mr. Root replied that his practice amounted to \$150,000 a year, but that if he wanted to employ him with that intention as to his charges, he "guessed he could come over."

Mr. Root retired to private life in February, 1904, because he felt that he could not, in justice to his family, continue to remain in the cabinet. Mrs. Root also was opposed to living in Washington, and spent very little time there. Just about the time Mr. Root retired his wife inherited \$3,000,000 through the death of her father, Simon H. Wales. This removed one of Mr. Root's objections to returning to public life.

Sketch of Elihu Root.
Elihu Root was born in Clinton, O., on Feb. 15, 1845. He was the son of Dr. Oren Root, professor of mathematics at Hamilton college, from which he graduated as valedictorian of his class in 1864.

Young Root, after leaving college, taught for a year at an academy in Clinton, N. Y., then decided to study law, and entered the University of New York, completing his legal education under John Norton Pomeroy. He was admitted to the bar in 1867, soon acquiring a reputation as one of the ablest young corporation lawyers in New York city.

His first important case was the suit of The People against Ingersoll, in which he upset Charles O'Connor's theory that the state, and not the country, was the proper party to sue for money alleged to have been taken from the country, and never since then has Elihu Root wanted for or against. He was a candidate for judge of the court of common pleas in 1879, but was defeated.

Came to Front in Politics.
He was appointed United States district attorney for the Southern district of New York for a term extending from March, 1884, to 1886. He was elected to the office of Hamilton college in 1883. He became chairman of the New York city Republican committee, and for a number of years was executive member of the Twenty-first Assembly district, and was a prominent member of the state constitution convention.

From now on he was recognized as a political power, and more than once he was talked of as a mayoralty or gubernatorial candidate, and was often mentioned for one judicial office or another. But his experience in 1879, for judge of the court of common pleas, and his similar experience, and he persistently has refused judicial nominations.

A year ago President Roosevelt used all of his influence to persuade him to accept the nomination for governor in order to strengthen the national ticket in the state, but Mr. Root refused to return to his remunerative law practice after five years in the cabinet, as he persistently refused.

He was mentioned as United States senator and on his resignation from the cabinet was widely talked of for the place. It had become almost a tradition that Elihu Root would be Secretary of War on the next administration. After the death of Secretary of War Simon Cameron's time had followed this rule, and it was expected that Root's case would prove no exception.

Mr. Root has been president of the Union League club, the Bar association, and the Republican club, and he has served as president of the New York society in the city of New York. Hamilton college conferred upon him the degree of LL. D. in 1894.

Succeeded Alger in Cabinet.
Mr. Root succeeded Gen. Alger as Secretary of War on Aug. 1, 1899, receiving his portfolio from President McKinley.

FAITH OF POPE IS UNSHAKEN
Pontiff Declares God Will Give the
Church Strength in Crisis.

Rome cable: The Vatican authorities have received numerous telegrams from Paris concerning the vote in the assembly of deputies approving the separation of church and state. Afterward in receiving Cardinal Talmi, his holiness said he was not surprised at the result, which he had expected, but he was sure God would give the church strength to overcome the crisis.

Federal Convicts Escape.
Tacoma, Wash., dispatch: Eight convicts escaped from the federal penitentiary on McNell's island, leaving the island in two government boats. Before leaving the convicts disabled the government launch.

Iowa Gets a Distillery.
Oskaloosa, Iowa, dispatch: The city council has granted Charles Hoover the right under provisions of a law to operate a distillery in Oskaloosa. This will be the first distillery in Iowa.

Athlete Perishes in Regatta.
Minneapolis, Minn., dispatch: Vernon B. Martin was drowned while sailing a sloop in the races at Lake Minnetonka. Martin was a student of the University of Minnesota and a well-known athlete.

Boys Risk Life to Save Train.
Altoona, Pa., dispatch: Wallace Moore, 8 years old, saw that a switch was open on the Pennsylvania road, and as the northbound passenger train approached stopped it.

Big Coal Combine Is Formed.
Pittsburg, Pa., dispatch: A combination of twenty-six coal companies of Indiana, controlling 29,000 acres of coal lands, has been formed here under the name of the Vandalia Coal company.

Changes Orthodox Headquarters.
St. Petersburg, cablegram: Emperor Nicholas has signed a decree transferring the headquarters of the Russian Orthodox church in America from San Francisco to New York.

Palace for Ambassador White.
Rome cablegram: Del Drago, one of the handsomest buildings erected in the seventh century, is being renovated in its original style. It will be used for the use of Ambassador White next autumn.

La Porte to Have Race Meet.
La Porte, Ind., dispatch: The La Porte Agricultural Association has announced a race meeting of one day on the track here July 4. Four races will be held, each one for a purse of \$250.

Minnesota Has Nearly 2,000,000.
St. Paul, Minn., special: Minnesota's present population is 1,925,000. The estimate is made by George Wright, superintendent of the state census, which is practically completed.

William Lawyer, a prominent young farmer living near Osochoon, N. Y., was shot and instantly killed during a quarrel with Harvey Pratt over a line fence. The sheriff's posse surrounded the Pratt home, whereupon Pratt killed himself by shooting.

Despondent at Loss of Sight, Indiana Man Hangs Himself.
Washington, Ind., special: Despondent because he became totally blind a few months ago, Reason Skeels of this city hanged himself in a coal house at the rear of his home. John Weaver, a neighbor, found Skeels' body suspended in space and cutting him down. He carried the body into the house. He lived for six hours, but never regained consciousness. He was 45 years old.

SUBSCRIPTION RATES.
One Year, \$1.50
Six Months, .75

Advertising Rates.—For display matter a flat rate of 10 cents an inch is charged. The columns in the Tribune are 24 inches long, making a one column advertisement cost \$2.40 for one insertion. All local notices, cards of thanks, resolutions of respect, and notices of entertainments where an admission fee is charged will be published at 5 cents per line.

Against Secret Societies.

At the session of the National Educational Association held at Ashbury Park, N. J., recently, one of the speakers was L. O. Harvey of Minneapolis, Wis., and among the other subjects touched upon by Mr. Harvey was the matter of secret societies in the high schools. He spoke in very decided terms against the secret societies and gave as some of the reasons as follows:

"Because they are unnecessary in high schools; because they are factional and stir up strife and contention; because they form promiscuous and unnatural friendships; because they are selfish; because they are envious; because they disintegrate energy and proper ambition; because they set wrong standards of excellence; because they are narrow; because rewards are not based on merit but on fraternity vows; because they inculcate a feeling of self sufficiency in the members; because they lessen teamwork and cordiality toward teachers; because they are hidden and inculcate dark lantern methods; because they foster a feeling of self importance; because high school boys are too young for club life; because they foster the tobacco habit; because they are expensive and foster habits of extravagance; because of the changing membership from year to year making them liable to bring discredit and disgrace to the school; because they weaken the efficiency of, and bring politics into the legitimate organizations of the school, and because they detract interest from study."

AFRICAN SANDSTORMS.

The conditions which bring about these deadly blizzards.

The sandstorms of African deserts are caused by the great power of the sun's rays, the extreme dryness of the air and the small controlling power of wind. The superficial layers of sand in the deserts of Africa and Arabia often being heated to 200 degrees F. to a depth of several inches. The air resting on this hot sand becomes also greatly heated, thus causing ascending currents. As a result, air from all sides, and of different currents meeting, different clouds are formed, which are swept onward by the wind prevailing at the time. Since the temperature of the air, originally high, is still further raised by the heated ground of sand with which it is loaded, it rapidly increases to a most intense degree. In the middle of the day, the air is so hot that it is to the parching dryness of this wind, its glowing heat and its choking dust and not, as is sometimes supposed, to any poisonous qualities it possesses that its destructive effects on animal life are to be ascribed. The effects of sandstorms are most terrible, large animals being frequently killed, and the whole of the country is covered with the carcasses of camels and camels and camels are annihilated.

DEEP SEA ANIMALS.

How These Who Live Below All Vegetation Obtain Their Food.

"Nature has the life of the deep portions of the ocean are encyclopaedia, no vegetable life being found below 200 fathoms," writes W. S. Harwood in Harper's Magazine. "In the Atlantic ocean the vast Sargasso sea, containing 8,000,000 square miles of surface—a great marine prairie as large as the whole of the United States exclusive of Alaska and dependent islands—affords vegetable food for uncountable animals, which in their due time die and are precipitated to the depths, their bodies in turn to be eaten by the animals."

Newspaper Subscribers.

For the information of the thousands of people who subscribe for newspapers and frequently forget to pay for the same we quote a few interesting decisions by the United States courts touching upon the subject:

1. Subscribers who do not express notice to the contrary, are considered as wishing to renew their subscriptions.

2. If subscribers order the discontinuance of their periodicals, the publisher may continue to send them until all arrearages are paid.

3. If subscribers neglect or refuse to take their periodical from the post-office to which they are directed, they are responsible until they have settled their bills and ordered the paper discontinued.

4. If subscribers move to other places without informing the publisher and the papers are sent to the former address, such subscribers can be held responsible.

5. The courts have decided that refusing to take periodicals from the office is prima facie evidence of intentional fraud.

6. If subscribers pay in advance they are bound to give notice at the end of the time if they wish to continue taking the paper.

7. The latest postal laws are such that newspaper publishers can arrest anyone for fraud who takes the paper and refuses to pay for it. Under the law, the man who allows his subscription to run along for some time unpaid, and then orders it discontinued or gets the postmaster to mark it "refused" and has a postal card sent notifying the publisher, leaves himself liable to arrest and fine the same as for theft.

Every publisher is in duty bound to discontinue subscribers when lawfully notified. But subscribers should comply with the law and pay up all arrearages. The editor of this journal believes in living up to the law.

Where are you sick?

Headache, fainting, no appetite, lack energy, pain in your stomach, constipation, indigestion, nervousness, etc. will make you well and keep you well. 35 cents. Johnson & Hill Co.

Good Cause For Sorrow.

An uncle who has just lost his nephew is in despair and cries continually: "What kills me is the knowledge that no one now will be sorry when I die. It is horrible, horrible, to think of it!"—Paris Journal.

Naughty Willie.

Dorothy—Mamma, Willie Primly keeps staring at me all the time in church. Mother—Where does he sit? Dorothy—Right behind me, mamma. Chicago News.

Attendance at the Summer Session.

The attendance at the Summer Session this year has increased in the graduate students is 50 per cent over last year. The increase in the College of Letters and Science is 30 per cent. In 1903 there were students in the Summer Session from 19 states and foreign countries. In 1904 from 22, and in 1905 from 30. Both Russia and Japan have representatives in the Summer Session. The states other than Wisconsin which are the most largely represented are Illinois, Ohio, Indiana, Missouri, Texas, Minnesota and Pennsylvania. At least three-fourths of the students, however, come from Wisconsin, and the number has increased about 10 per cent over that of last year, which was a decided increase over that of any preceding year. About 40 per cent of the graduate students are graduates of the University of Wisconsin. The other 60 per cent represent 47 different institutions in the United States and foreign countries.

HORACE GREELEY.

The Gentle, Franconian and Welshman.

"When Horace Greeley was first married and brought his bride home on a visit," said an old acquaintance, "a supper party was given in their honor at a neighboring farm. All the guests had arrived, and we were looking out watching for the bride and groom. At last we saw something like a pair of white horses. As this came near the fence we discovered it was the old white horse of the Greeleys slowly picking his way through the mud, on his back sat the bride in a brilliant yellow frock, with a green velvet belt, and behind her, wrapped in his famous white overcoat, sat the groom. The groom called to the bride and she called to the groom and said to us off in his of laughing. I remember that I simply lay down and rolled upon the floor in a spasm of mirth."

"Mr. Greeley came home every year and after a day or two on the farm would start out to walk and called on people. He was never known to call on people at a farmhouse door. No matter whether he knew the inmates or not he would push open the door, walk right in, sit down by the fireplace and fall to discussing crops and other topics dear to the farmer's heart. Everybody was glad to see this gentle, franconian and welshman."

THE COUNCIL PROCEEDINGS.

Council Rooms, July 5, 1905.

Council met in regular session Mayor Nash presiding. Aldermen present—Arpin, Slattery, Billmyre, Gross, Nason, Getzlaff, Porter, Paulsen, Bossett, Jackson, Rosier, Mulroy, Hill and Nieman, 15. Absent—King.

On motion, the reading of the minutes of the last regular meeting was dispensed with. There was presented the petition of W. H. Barnes and others for the laying out of a street in Gardner's addition and in Wisconsin Heights addition on the east side, and on motion, the same was referred to the street committee.

There was presented the petition of Jacob Seab and others for the laying out of cross-roads on Prospect St., both crossings being on the easterly side of Milwaukee street, and on motion, the same was referred to the street committee.

There was presented the petition of G. S. Beardsley and others for the extension of the water works and water pipe along Law St. from the intersection of Oak St. and Law St. south along Law St. for a distance of about 910 ft. and on motion, the same was referred to the water works committee.

There was presented the petition of G. S. Beardsley and others for the extension of the sewer along Law St. in district No. 1 from the intersection of Oak St. and Law St. in a southerly direction along Law St. for a distance of about three blocks and, on motion, the same was referred to the sewer committee.

There was presented the following petition of A. M. Smart and others: "We the undersigned property owners respectfully petition that a water main be laid upon the following streets in said city of Grand Rapids, Wisconsin, viz:—First St. from High to Elm St., Seymour St. from First to Third St., Elm St. from First to Third St." The above petition was accompanied by the report of the water works committee recommending that the petition be allowed. On motion, the report for the committee was unanimously adopted and the petition granted.

The sewer committee reported upon the petition of Robert Farish and others for the extension of the city sewer system on High St. south from the corner of High and Vine St. to connect with the sewer system already established on High St., recommending that the petition be not granted. On motion, the report of the committee was adopted.

The sewer committee reported upon the communication of B. M. Vaughan reporting that the city has no sewer discharging refuse matter on certain land described in the communication. On motion, the report of the committee was adopted.

The street committee reported upon the petition of N. R. Hall and others for a cross-walk on Front St. recommending that the cross-walk be placed across Front St. and Center St. opposite the south end of the block which the First National Bank is being built. On motion, the report of the committee was adopted.

The street committee reported upon the petition of M. A. Bogoroff and others for the macadamizing of and putting in of a sewer on Vine St. from Front to High Sts. recommending that the petition be granted. On

THE STREET COMMITTEE.

Report of the Street Committee.

The street committee reported upon the petition of N. R. Hall and others for a cross-walk on Front St. recommending that the cross-walk be placed across Front St. and Center St. opposite the south end of the block which the First National Bank is being built. On motion, the report of the committee was adopted.

The street committee reported upon the petition of M. A. Bogoroff and others for the macadamizing of and putting in of a sewer on Vine St. from Front to High Sts. recommending that the petition be granted. On

motion, the report of the committee was adopted.

FARM FIELD AND GARDEN.

SHADE GROWING.

Strawberries, Cucumbers, Celery and other plants under trees.

The alleged success of tobacco growers in producing a superior quality of leaf under trees has led to the inquiry whether a similar covering might not be given to other plants. Experiments to test this with several kinds of vegetables and with strawberries were made in 1903 at the Rhode Island station and are now reported upon.

The same kind of cloth was obtained as that used in the tobacco work, it being a thin cotton fabric, similar to

The home of Peter Christman was made happy last week by the arrival of a little baby girl.

H. L. Freeman, the Randolph hardware man was a business visitor in the city on Saturday.

—Good repairing at a low price at Krieger's. Tires and casing from \$1 up.

Among those who have purchased hay from the Centralia Hardware Co. during the past week are F. O. Binger of Vesper, Wm. Brosiowski of Sigel, John Lindahl and Ed Warner of Rudolph.

Silas Payne of Fond du Lac is in the city this week visiting his children and friends. Mr. Payne recently underwent a severe operation and his many friends here are pleased to see him about again.

Oscar Daugherty, who has been confined to his home for several days past, underwent an operation on Tuesday, and it is expected that he will soon be about on his feet. He is under the care of Dr. Rockwell.

H. A. Herschleb is having a new plate glass front put in his bakery, and when completed it will present a much better appearance than before. It is also the intention to have the building covered with metal.

Grant Beardsley is suffering from a sore eye, which he received by being struck in the eye by the point of an umbrella. It is not expected that he will suffer any permanent inconvenience from the hurt.

Mrs. H. H. Comstock and children are in the city for a week to visit her husband, Conductor Comstock, who is running on the Nekoosa branch. While here they are staying at the home of Mr. and Mrs. W. L. Boyce.

—Wood and coal for sale. Also contractors of cement blocks for sidewalk walks. For prices see Bassett Bros. & Ebert, telephone 51.

—An interesting discovery has recently been made which is that Galvanic Soap will accomplish better results in cleaning carpets and removing spots than the soaps especially designed for that purpose.

A clothing firm from Chicago has been negotiating with F. J. Wood for the rent of the new building that is being erected by the Wood County Bank people, but up to date the deal has not been closed.

Very low rates to Denver, Colo., via the North-Western line. Excursion tickets will be sold August 12 and 13, with favorable return limits, on account of various meetings. Apply to agents Chicago & North-Western R'y.

It is claimed that the cigarette bill passed by the legislature last winter may not be any good for the reason of a misplaced punctuation mark in the law. It may not be so, but it does not seem as if it made much difference to the public whether it is or not.

The supreme court of the state of Kansas has declared the law passed by that legislature last winter providing for the erection and maintenance of an oil refinery by the state to be unconstitutional. It looks as if the oil trust had a drag with the supreme court.

Joseph Jagodzinski, one of the solid farmers of the town of Sigel was a business caller at the Tribune office on Saturday. Mr. Jagodzinski reports a big hay crop in his town but says the weather has been very unfavorable for haying, there being too many showers.

Very low rates to Detroit, Mich., via the North-Western line. For tickets to be sold August 12 and 13, with favorable return limits, on account of Imperial Palace Dramatic Order Knights of Klonoas. Apply to agents Chicago & North-Western R'y.

Private notices from Rev. B. J. H. Shaw, who is now located at Ambly, Ill., state that he is getting along nicely in his new home and that he is greatly pleased with the new location. The two people of Ambly are pleased to have Mr. Shaw with them, goes without saying.

—Grand Rapids Lodge, No. 128, P. & A. M.—A special communication of this lodge will be held Thursday evening, July 13th, at which time there will be work in the E. A. degree. A good attendance is requested. By order of the W. M. W. A. Brazeau, Sec.

—Painting and paperhanging by Nels Laramie. He is in the business to stay and guarantees all his work. His prices are right. Let him figure in your work. Phone 89.

August J. Bna of Kellner was a pleasant caller at the Tribune office this morning. He says that the farmers on his way have not commenced their haying as yet, and that there is an unusual amount of water on the marshes for this time of the year.

A change was made in the Brazeau-Hannon Jewelry firm yesterday. E. A. Hannon buying out W. A. Brazeau's interest in the business. Mr. Hannon, who is now the sole owner of the business will continue the place in the future the same as he has in the past.

V. D. Simons has resigned his position with the Westinghouse people and has accepted the position as manager of the Grand Rapids Pulp and Paper company at Biron, and entered on the discharge of his duties last week. There is no question but Mr. Simons will be a good man in the place.

The stock and cattle fair held on the east side market square on Tuesday was not very largely attended, probably owing to the fact that most of our farmer friends have something more important on hand at the present time. The farmer who has any hay to cut has to do so on the installment plan nowadays, as when it is not raining it is threatening to rain, which has a very serious effect on the work. It is probable that after the crops are secured the farmers will be able to do more in the way of bringing stock to market.

Work on the new plant of the Grand Rapids Poultry Co. has been progressing at a satisfactory rate of late. They are now operating their machinery by means of an electric motor since the line was constructed from the Consolidated plant, and they expect to carry the work right along without a hitch.

Fraser Walsh is nursing a very sore hand at the present time as the result of a burn. He was assisting in the work of tarring the roof of the new postoffice building when a quantity of boiling tar was spilled over his hand, burning it quite severely. He will be unable to work for some time on account of his injury.

Mr. and Mrs. A. M. Marceau, who have made their home in Stevens Point for a year past, are in the city visiting their relatives and friends. Mr. Marceau expects to go from here to Minneapolis to investigate a position that has been offered him up there.

Otto Gutknecht arrived in the city on Sunday to visit with friends and relatives for a few days. Mrs. Gutknecht is still going about with the help of a crutch, having broken her leg in two places some eight weeks ago, since which time he has been in the hospital at Fond du Lac. He expects to go to Michigan from here.

L. M. TenEyck, a brakeman employed in the day switch crew in the Tomahawk yards, has received the news that he is one of the heirs of the \$10,000,000 estate of a great uncle who recently died in New York city. Mr. TenEyck is one of fifty heirs who comes in for a part of the estate. Mr. TenEyck's father, H. G. Ten Eyck, and a sister, Mrs. Bert Hull, reside in Minneapolis and are also claimants to a share in the fortune.

Mr. and Mrs. S. A. Strasson of New York, Mrs. Rube and son of Milwaukee and Mrs. S. Holmstrom of Merrill are guests at the home of Mr. and Mrs. L. Baruch. Mr. and Mrs. Strasson are Mrs. Baruch's parents and Mrs. Rube is a sister. An unfortunate occurrence is the fact that Mrs. Baruch was taken quite ill on Monday, and has since been confined to her bed.

P. O. Wither, editor of the Pittsboro Times, was in the city on Saturday and Sunday, and while here paid the Tribune office a pleasant call. Mr. Wither has been getting up one of the best newspapers that Pittsboro has ever had, and while he reports an increase in the business, it is not what he would like, and he is considering the advisability of moving the plant to a more favorable location.

Henry Casper who runs a saloon three miles south of Milladore, in the town of Sherry intends holding a monthly stock fair at his place of business. The first fair will be held on Monday, July 17 and every three weeks thereafter. Mr. Casper has made arrangements for buyers to be on hand and there is no reason why a fair in that locality should not be a success. There will be a dance in the evening.

Word was received here today to the effect that V. N. Landry, who left here some time ago for the west, was in a destitute condition at Billings, Montana. The letter was addressed to the local lodge of the Independent Order of Painters, and stated that Mr. Landry had tuberculosis, eczema and rheumatism, and was in a very deplorable condition, and asked for aid for him. Mr. Landry's friends here will be very sorry to hear that he has been encountering such hard luck.

—Bring Baby to Frick's.

John Jarvis of Port Edwards was in the city on Saturday and while here he favored the Tribune office with a pleasant call. Mr. Jarvis was last week elected school clerk of the village for another three years notwithstanding the fact that he considered that he had served in that capacity long enough, having put in twenty-four years in that office. Mr. Jarvis was elected director and W. A. Brazeau treasurer of the district.

Physicians have discovered that high collars worn by women produce cancer of the throat and an exchange added that low-necked dresses produce pneumonia, corns cause heart failure and shortness of breath, and long skirts gather up germs of all infectious diseases, thin shoes produce consumption and tight shoes cause the toes to grow together, and looking at bright millinery causes sore eyes. These conditions being true isn't it a wonder that the gentler sex continues to exist.

Sparta Herald—The strawberry season is now practically at an end. Owing to blight and the wet and cold weather the yield was only about one-half as much as last year. The Sparta Fruit Growers' association shipped 67 cars of strawberries this year, about 20,000 cases, and the express companies probably shipped one-third as much. Fortunately there was no serious slump in the strawberry market this season and the growers realized more substantial prices than a year ago. The average price paid per case was in the neighborhood of 50 cents.

Work on the new plant of the Grand Rapids Poultry Co. has been progressing at a satisfactory rate of late. They are now operating their machinery by means of an electric motor since the line was constructed from the Consolidated plant, and they expect to carry the work right along without a hitch.

Mr. and Mrs. A. M. Marceau, who have made their home in Stevens Point for a year past, are in the city visiting their relatives and friends. Mr. Marceau expects to go from here to Minneapolis to investigate a position that has been offered him up there.

Otto Gutknecht arrived in the city on Sunday to visit with friends and relatives for a few days. Mrs. Gutknecht is still going about with the help of a crutch, having broken her leg in two places some eight weeks ago, since which time he has been in the hospital at Fond du Lac. He expects to go to Michigan from here.

L. M. TenEyck, a brakeman employed in the day switch crew in the Tomahawk yards, has received the news that he is one of the heirs of the \$10,000,000 estate of a great uncle who recently died in New York city. Mr. TenEyck is one of fifty heirs who comes in for a part of the estate. Mr. TenEyck's father, H. G. Ten Eyck, and a sister, Mrs. Bert Hull, reside in Minneapolis and are also claimants to a share in the fortune.

Mr. and Mrs. S. A. Strasson of New York, Mrs. Rube and son of Milwaukee and Mrs. S. Holmstrom of Merrill are guests at the home of Mr. and Mrs. L. Baruch. Mr. and Mrs. Strasson are Mrs. Baruch's parents and Mrs. Rube is a sister. An unfortunate occurrence is the fact that Mrs. Baruch was taken quite ill on Monday, and has since been confined to her bed.

P. O. Wither, editor of the Pittsboro Times, was in the city on Saturday and Sunday, and while here paid the Tribune office a pleasant call. Mr. Wither has been getting up one of the best newspapers that Pittsboro has ever had, and while he reports an increase in the business, it is not what he would like, and he is considering the advisability of moving the plant to a more favorable location.

Henry Casper who runs a saloon three miles south of Milladore, in the town of Sherry intends holding a monthly stock fair at his place of business. The first fair will be held on Monday, July 17 and every three weeks thereafter. Mr. Casper has made arrangements for buyers to be on hand and there is no reason why a fair in that locality should not be a success. There will be a dance in the evening.

Word was received here today to the effect that V. N. Landry, who left here some time ago for the west, was in a destitute condition at Billings, Montana. The letter was addressed to the local lodge of the Independent Order of Painters, and stated that Mr. Landry had tuberculosis, eczema and rheumatism, and was in a very deplorable condition, and asked for aid for him. Mr. Landry's friends here will be very sorry to hear that he has been encountering such hard luck.

—Bring Baby to Frick's.

John Jarvis of Port Edwards was in the city on Saturday and while here he favored the Tribune office with a pleasant call. Mr. Jarvis was last week elected school clerk of the village for another three years notwithstanding the fact that he considered that he had served in that capacity long enough, having put in twenty-four years in that office. Mr. Jarvis was elected director and W. A. Brazeau treasurer of the district.

Physicians have discovered that high collars worn by women produce cancer of the throat and an exchange added that low-necked dresses produce pneumonia, corns cause heart failure and shortness of breath, and long skirts gather up germs of all infectious diseases, thin shoes produce consumption and tight shoes cause the toes to grow together, and looking at bright millinery causes sore eyes. These conditions being true isn't it a wonder that the gentler sex continues to exist.

Sparta Herald—The strawberry season is now practically at an end. Owing to blight and the wet and cold weather the yield was only about one-half as much as last year. The Sparta Fruit Growers' association shipped 67 cars of strawberries this year, about 20,000 cases, and the express companies probably shipped one-third as much. Fortunately there was no serious slump in the strawberry market this season and the growers realized more substantial prices than a year ago. The average price paid per case was in the neighborhood of 50 cents.

Work on the new plant of the Grand Rapids Poultry Co. has been progressing at a satisfactory rate of late. They are now operating their machinery by means of an electric motor since the line was constructed from the Consolidated plant, and they expect to carry the work right along without a hitch.

Fraser Walsh is nursing a very sore hand at the present time as the result of a burn. He was assisting in the work of tarring the roof of the new postoffice building when a quantity of boiling tar was spilled over his hand, burning it quite severely. He will be unable to work for some time on account of his injury.

Mr. and Mrs. A. M. Marceau, who have made their home in Stevens Point for a year past, are in the city visiting their relatives and friends. Mr. Marceau expects to go from here to Minneapolis to investigate a position that has been offered him up there.

Mr. Casper has made arrangements for buyers to be on hand and there is no reason why a fair in that locality should not be a success. There will be a dance in the evening.

**Security, Courtesy
and Promptness**

Are the three things most carefully

WRAPS AND GOWNS

Sunbonnets and Aprons.
Sunbonnets, to keep off sunburn, and, incidentally, to look very pretty in, are proving mighty popular. They are made up over stout muslin, are fascinating when their pink ribbons match the pink gown they're worn with, or give an unexpected dash of color to an all-white gown with white ribbons. The white of summer stuffs might be gone over without finding a material which, in delicate colors, wouldn't be suitable.

And aprons—artist have worked revolutions in them, until they're no longer a badge of servitude, or of the opposite extreme, the fancy-work girl, but are deemed for gardening and for all sorts of work.

Shallow Yokes.
Shallow yokes of Valenciennes lace, ribbon running round, and each row filled slightly to the one above in order to give the flare for the shoulders, are the most common of the pretty yokes, and, made by hand, are as attractive as many more elaborate designs. Sometimes the lace rows are joined by open stitch instead of being sewed edge to edge, and a variation upon this simple yoke is obtained by using the narrow Valenciennes collar in place of the lace, the collar edge of one row being sewed down upon the straight edge of the row below.

Lace edge is also used as an insertion in other parts of lingerie blouses and frocks, being sewed upon the inside with the seam edge upward. This material is then cut from underneath and finished just as in the case of the ordinary insertion.

Stunning Shirred Effect.
One of the most modish of the new waists is shown here, and it will win the admiration of beauty-loving women everywhere because of its simplicity. For the slender woman the shirred bolero effect will supply full-

ness to the bust, and the puff sleeves brought to narrow shoulders. A soft lace in lavender or yellow, with a dark lace and crushed grade of a dark lace, chiffon velvet or tulle will develop this model most becomingly.

A Good Hamburg Steak.
A hamburger steak is so carefully prepared by many because it is badly prepared. In the first place, it is always most satisfactory to buy a fresh-ly cut slice from the round and put it through the home food chopper, or the chopper in the store is not as free-quent as it is thoroughly cleaned as it should be, and often gives a taint to the meat which is remedied, says the Brooklyn Times, for each pound add after chopping one tablespoonful of onion juice, a half teaspoonful of pepper. Wash thoroughly with the hands, then mould into an oval steak fully an inch and a half thick. Arrange in a greased broiler and place over a rather moderate fire. Turn every half-minute and cook from eight to ten minutes. It should be slightly rare, tender, juicy and well flavored. When sliced pour the sauce round it.

Pretty for Summer Frocks.
A pretty notion is an arrangement of pom-pom ribbon on a net gown. Say the gown is rose pink net, and we have two bands of ribbon, which with roses on it, in place of the net around the skirt. Then a broad scarf of it starts under one arm and hooks across to the opposite under-arm seam in an empire style effect. There are two pointed Director's revers of the ribbon, and short puffed elbow sleeves, and all the rest is lace and net. A lovely arrangement for summer frocks, and so deliciously dainty.

Of Sheer Silken Stuff.
The sheer silken stuffs are lovelier than ever and as popular. A pretty gown is made from one of the new silks, which is exceedingly soft, with a luster and yet seems hardly like silk or satin. Its ground is shot in almost green and white, with the most delicate of little white vines running over its surface. A small square yoke of tucked white mouseline is bordered with a band of narrow lace insertion and three ruffles of lace. The fullness of the draped bodice is caught on either side by a strap of silk on which are fastened three small buttons. Similar treatment is given the short puffed sleeve, which is edged with a double ruffle of lace. The hat is white chip trimmed with white camellias and green foliage.

Pastel Tinted Waist.
Pastel tinted waistwaists are approved by Dame Fashion for wear with coat suits, but not with white linen or serge skirts. Apropos of white serge, this material has been restored to the greatest favor. The chic summer girl will have a short skirt and coat elaborately braided. But to return to the shirtwaist, the one dominant idea is that it shall be transparent, whether destined for wear in the morning or for an afternoon walk. A good rule to follow is that all widths are cut the exact length of the figure for front, back and arms. There is no extra ma-

terial allowed for a drop on the sleeves at the elbow, which style is now decidedly de mode. The sleeves are full, but do not bag, and the material is cut the length of the arm. The pin tucks, run daintily by hand, do not supply much fullness at the wrist, but fullness at this point is very undesirable this season. The high waisted bodice, with the figure and this effect caused by the accumulation of material, is a lot of lovely material to be pushed under the top.

Boudoir Confidences.
Puffs are featured. Skirts flare broadly. Girdles point down. Many buckles figure. Long guilottes remain. Sleeves are quite small. Parasol decorations are flat. Princess effects will not down. All hats turn up at some point. Leghorns have been resuscitated. Flowered boleros reach the hips. A draped bolero is caught down the front. There are monarchical lingerie underclothes. Little hats and high collars mean high collars. Fancy cut tails are added to all sorts of blouses. A very charming hat is faced with crinkled blue roses.

All-Embroidery Gowns.
The all-embroidery gown is made of alternating stripes of India lawn and white, and is of simple machine-made embroidery in good design. It is made shirtwaist fashion, buttoned up the back with many small blue buttons, and is finished at the bottom with ruffles of the white. The frock is worn over a pale blue silk and is finished with ruffles of blue ribbon and enamel buttons over a plastron of white batiste, trimmed with Valenciennes lace insertion. A

Utility Materials.
The utility or outdoor materials are numerous this season and of them all ponceous holds the list. In fact ponceous holds every list, not only in utility and outdoor suits, but in pretty indoor costumes as well. After ponceous, in the utility materials, come flannel, serge and cashmere. And next, but not winding them up by any means, can be counted the heavy plinghams and the utility madras goods and the heavy washable stuffs which are so fine for almost every outing occasion.

Meant for Cooler Days.
A simple dress is of white moulin, with that very effective white Russian braids as trimming around the bodice and on the cuffs, as well as twice around the skirt, worn over a blouse of lawn and Valenciennes lace, and topped off by a smart, close hat of white meshair, with a long black algette on one side, leading toward the back, and a deep band of white gardenias. All this sounds elaborate, but in reality is easily carried out, and is a perfect gown to wear on hand for cool summer days when one wants a rather more substantial dress.

Pale Blue Pen de Cygne.
A pale blue pen de cygne has the skirt laid in three wide tucks just above the hem. The skirt is full, but its closely about the hips. The low bow is rounded out in the neck and in the outline of the lace with high stock inset. The sleeves consist of a large puff of silk reaching to the elbow and finished with lace ruffles. The undersleeves are of lace and fit the arm closely, ending in tiny ruffles of lace which fall over the hands.

Spanish Fruit Pudding.
Line a baking dish with a light puff paste, add a layer of shredded pineapple, and cover it with powdered sugar; add a layer of sweet oranges, sliced; and cover it with powdered sugar; next add a layer of sliced bananas with sugar strewn over them. Repeat the process until the dish is full. Cover the dish with a light puff paste and bake it to a delicate brown.

Bracelet Bobs Into View.
With the return of the elbow and three-quarter sleeve, a demand has arisen for bracelets. Narrow bangles of single colored stones, set to show no setting at all, are much liked. Some jewelers fasten six or eight such bangles together with a diamond clasp.

Junk Dealer Missed Chance.
A junk dealer at Reggio Emilia, Italy, some time ago bought a discarded picture for half a franc, and vainly exposed it for sale for months. Eventually Prof. Balletti, an amateur collector, happened to see the picture and offered five francs for it. The junk dealer gleefully sold it, but he is now deeply chagrined, having learned that Prof. Balletti has refused an offer of 20,000 francs for the picture, which is apparently a Van Dyke.

Extremes in Locomotion.
Extremes in locomotion met out in Rutland when a big touring car broke down on the road and had to be towed by a yoke of oxen. Horses were tried first, but they were so frightened by the noise of the machine that they had to go back a step farther and seek the aid of the patient draft animals of our fathers.

Shot Car in Water.
A Tariffville, Conn., sportsman saw two German car stuning themselves on the surface of a pond near that place. The sportsman was armed at the time with a shotgun and with that weapon captured both fish. They weighed thirty-one pounds.

Makes Pica to Chauffeur.
As a result of a sad experience, with reckless chauffeurs, the owner of a dwelling at the corner of two streets in Basingstoke, Eng., has put upon it a placard, reading: "Motor car drivers are requested to leave this house where it is."

Rose-colored taffeta gown embroidered in black and trimmed with narrow plaited ruffles.

A man suggests that a little lard or vasoline be applied on a door or window to the part which rubs and prevents opening.

A little lard mold around the surface of the ground about the roots of hardy ferns will improve the color if they appear sickly.

"Antique" Is New Style.

Among the old weaves that have eluded the hand of the modern textile maker is a venerable textile of ancient and honorable lineage.

Children's Bonnets.

Children's bonnets are perfectly fascinating this season; they are mostly of the granitic type, with white turned back and upstanding brims.

Frock for a Little Girl.

Child's frock of gossamer blue voile. The blouse is trimmed around the neck and in front with white embroidery.

Utility Materials.

The utility or outdoor materials are numerous this season and of them all ponceous holds the list.

Meant for Cooler Days.

BICYCLE WITH FOUR WHEELS.

New Thriller Devised for Amusement of the Public.

The ordinary straightforward loop-the-loop having ceased to be a nine-day wonder, the historians having dug up the fact that similar diversions existed some fifty or sixty years ago, the purveyors of the amusement-loving public conceived a more diabolical device. These nerve-racking modifications of the original loop-the-loop consisted for the most part of mutilations of such loops, such as the introduction of intervening chasms, etc. When this style of performance failed to excite the expected thrill, more difficult stunts were placed over the performers to manipulate until at last we have the thrilling sensational stunts of the circus. This having become an old story, a rejuvenated bicycle is to be introduced. Instead of having one pair of wheels, there are two pairs arranged on a single frame and displaced one above the other, as indicated by the illustration. The rider occupies the usual saddle, but there is a supplementary cushion on the upper frame to brace the rider at such times

as this upper pair of wheels come into contact with the framework of the exaggerated and, perhaps, mutilated loop-the-loop.

DUTY OF CEMETERY CENSOR.

Inscriptions on Monuments Have to Be Approved.

Large cemeteries have a censor who prevents the erection within them of tombstones with unseemly inscriptions upon them.

Nature's Armored Cruisers.

Some of the papers are poking fun at the story which comes from the Bay of Biscay of crabs weighing sixteen pounds and possessing claws eighteen inches in circumference.

A Famous London Tavern.

The Bull and Bush at Hampstead was originally a farm house, and was converted into a tavern, and it soon became the favorite country tavern of all the wits, artists, and men

of letters of the Georgian era. Addison, Gainsborough, Reynolds, Charles Lamb, Coleridge, Clibber, Sterne, Garri-

son, and a host of others, were gathered in the upper room. In later times, Dickens, Sala, De Maurier, Charles Keene, Clement Scott, and others came to the same bracing, bright spot.

MARKETING POTATO CROPS.

In line with the classic case of the orster shippers, cited by President Hadley of Yale University in his book on Railroad Transportation, is the case of the Aroostook potato growers.

The Aroostook potato growers of the Boston and Maine Railroad before the Senate Committee on Interstate Commerce. Nothing could better show how a railroad works for the interest of the localities which it serves.

A main dependence of the farmers of the Aroostook region is the potato crop, aggregating annually eight to ten million bushels, which find a market largely in Boston and the adjacent thickly settled regions of New England.

The competition of cheap water transportation from Maine to all points along the New England coast keeps the railroad freight rates on these potatoes at a very low level.

Potatoes are also a considerable output of the truck farms of Michigan, their normal market being obtained in and through Detroit and Chicago and other communities of that region.

Not many years ago the tremendous yield of potatoes from the Michigan fields, at normal rates and prices there would have been a glut of the customary markets and the potatoes would have rotted on the farms.

To help the potato growers the railroad from Michigan made an unprecedented low rate on potatoes to every reachable market, even carrying them in large quantities to a place so remote as Boston.

The Aroostook growers had to reduce the price on their potatoes and even then could not dispose of them unless the Boston and Maine Railroad reduced its already low rate, which it did by means of these low rates, making possible low prices, the potato crops of both Michigan and Maine were finally marketed.

Everybody eats potatoes, and that year everybody had all the potatoes he wanted, but that would have been ruinous to the railroad, had they been applied to the movement of all potatoes at all times, to all places, they helped their patrons to find markets then.

The Boston and Maine Railroad suffered a decrease in its revenue from potatoes, but it enabled the Aroostook farmers to market their crop and thereby to make money which they spent for the varied supplies which the railroad brought to them.

If the making of rates were subject to governmental adjustment such radical and prompt action could never have been taken because it is well known that if a railroad is not restored through the red tape of governmental procedure, if the Michigan railroads and the Boston and Maine Railroad had been subjected to governmental limitation they would have felt obliged to keep up the rates to the railroads of France and England and Germany under governmental limitation and let the potatoes rot.—E. H. Hays.

The White River Division of the Iron Mountain Route. Between New York, Arkansas, and Carthage, Mo., is a rapidly approaching completion, and reports of representatives of the General Passenger Department, who recently made complete trip over the line, indicates that through trains will be running inside of sixty days.

"While several of the tourists have already made the trip from end to end of the completed line, and we have heard during the month of June over forty fishing parties from Carthage, who desired to make the five-day float from Galena to Branson, for turning on train in fifty minutes for the complete daylight run over the line," said Mr. H. C. Townsend, General Passenger Agent, "there will be a tourist travel unprecedented over any line in this part of the country.

The fishing proposition is becoming more and more popular, and we have heard during the month of June over forty fishing parties from Carthage, who desired to make the five-day float from Galena to Branson, for turning on train in fifty minutes for the complete daylight run over the line," said Mr. H. C. Townsend, General Passenger Agent, "there will be a tourist travel unprecedented over any line in this part of the country.

REVOLUTIONARY SPIRIT SPREADS IN EMPIRE OF THE CZAR

The provinces in arms against the Czar's rule are shaded on the map. Fifteen cities are affected, as follows:

WARSAW—City under martial law; streets barricaded; many wounded in fights.

LODZ—State of siege proclaimed after street fights in which 600 were killed; 20,000 Jews left city.

CZENSTOCHOWA—A bomb thrown at Chief of Police K. M. Pavlov wounded him and seven other persons were seriously wounded.

KOVNO—A mob of a thousand persons attacked the police station and the Governor General's palace today.

STARISTA—Revolutionists are scattering proclamations broadcast among the peasantry calling on them to rise.

ROSTOFF-ON-DON—The police discovered that large quantities of arms and ammunition have been purchased here and shipped to the Caucasus.

CHEMISTOCHOFF—A bomb thrown into the police station wounded several policemen.

SARATOFF—Troops dispatched to

three districts to suppress agrarian disturbances.

MINSK—Peasant disturbances spread.

EKATERINOSLAV—A panic created by the distribution of proclamations, calling on the people to fight against treason. Lowest classes being incited by the police against the educated classes.

BAIALISOFF—Town council adopted resolution demanding the abolition of police dictatorship conferred on General Trapoff.

RYLOSTOK—Workmen demanded opening of all factories and the immediate satisfaction of all grievances under a threat of bloodshed.

KALISH—Population was thrown into panic by a sudden volley of revolver shots in the center of the city and by "red flag" demonstrations.

KISHINEFF—All printers go on strike.

ODESSA—Two Cossacks and four workmen killed and a score wounded in riots. Factories closed.

SARATOFF—Troops dispatched to

three districts to suppress agrarian disturbances.

MINSK—Peasant disturbances spread.

EKATERINOSLAV—A panic created by the distribution of proclamations, calling on the people to fight against treason. Lowest classes being incited by the police against the educated classes.
